GENERAL INFORMATION

GENERAL

Model 8936 30-Row, 8936 22-Row, 8936 20-Row Forward Fold Planter with Central Fill System.

8900 Series Forward Fold Planters are designed, built and tested to make sure high quality, maximum strength and long service life. This machine features positive air metering and hydraulic seed drive for accurate seed spacing.

This manual contains information necessary for correct adjustment and operation of your planter. Read this manual carefully.

WARNING: Pictures in this manual can show protective shields and guards opened or removed for illustration purposes. **MAKE SURE ALL SHIELDS AND GUARDS ARE IN PLACE DURING OPERATION.**

This manual must remain with machine when sold.

This manual was prepared from the latest information available at publication time. The Company reserves the right to make changes at any time without notice or obligation.

SERIAL NUMBER PLATE LOCATION

FIG. 1: Row unit toolbar: The serial number plate (1) is located on the left-hand row unit toolbar of the center section.

FIG. 1

FIG. 2: Frame: The serial number plate (1) is located on the right-hand side of the main tongue.

FIG. 2
